STATEMENTS REGARDING THE COURSE OF INSTRUCTION.

RELIGIOUS SERVICES AND INSTRUCTION.

The students attend daily morning and evening prayers in the College Chapel. On Wednesday and Saturday evenings the attendance is voluntary.

On Sunday, at 4½ o'clock P.M., Evening Prayer is said, followed by a sermon. All students are required to be present. They attend the morning service at such church in the city as their parents or guardians designate.

The President, who is the Pastor of the College, discharges the duties of Chaplain, in which he is assisted by the other clerical members of the Faculty. Voluntary services are held during Advent and Lent, and at other times, in connection with the pastoral work in the College.

The Monday morning recitation is devoted to religious studies. These comprise, during the College course, the following subjects: History of the Holy Scriptures; critical readings of the New Testament in Greek; Natural Theology; the Evidences of Christianity; the Articles of the Christian Faith as contained in the Apostles' Creed; and the Book of Common Prayer.

LECTURES.

Besides those already mentioned as forming part of the Course of Instruction, lectures are delivered each year, as follow:

By Bishop Williams: to the Seniors, on Ancient History and the Modern History of Europe; to the Juniors, on the History of England and of the United States.

By Dr. Shattuck: to the College, on the Laws of Health.

By Dr. Wainwright: to the Seniors, on Anatomy and Physiology.

By Mr. Hamersley: to the Seniors, on the Constitution of the United States.

Other lectures are delivered from time to time, to different classes or to the whole College.

ENGLISH COMPOSITION AND ORATORY.

The Freshmen write translations from Greek and Latin authors once in two weeks throughout the year.

The Sophomores write translations from the classics once a month, and themes once a month throughout the year.

The Juniors and the Seniors write essays, deliver original orations, or take part in extemporaneous discussions, once in two weeks throughout the year.

At the Annual Examinations, the Seniors and the Juniors are examined in extempore theme writing.

The course in Oratory includes the study of gesture, attitude, and action; the study of vocal culture, with practical exercises in reading and declamation; and lectures on manner and style in public speaking, with readings from the plays of Shakespeare.

EXTRA STUDIES.

In addition to the studies of the regular course, the Professors in the several departments are authorized to assign more advanced work to such of the students in each class as prove themselves competent therefor. The names of the text-books used for these extra studies are not published in this catalogue.

Instruction in Spanish is given to those Seniors and Juniors who form a voluntary class for that purpose.

EXAMINATIONS.

The Examinations at the close of Christmas Term are upon the studies of the term.

The Annual Examinations, in presence of Committees appointed by the Corporation, the Board of Fellows, and the Faculty, are both oral and written, upon all the studies of the year. The

Examinations of the Seniors for degrees begin on June 10, 1875; and the Junior, Sophomore, and Freshman Examinations begin on the 17th of June.

Examinations for Honors follow the Annual Examinations. Admission to these is regarded as itself an honor, since it is gained by securing a high average mark at the daily recitations, and by passing the Annual Examinations with great credit. Success in the Examinations for Honors entitles a student to peculiar distinctions, both during and after his College course.

The Secretary of the Faculty will furnish copies of the Examination papers to Teachers or others who may desire them.

EXAMINATIONS FOR THE DEGREE OF BACHELOR OF SCIENCE.

Students may receive the degree of Bachelor of Science, provided they have resided at least two years and a half in College, and have regularly passed the examinations in all the prescribed studies of the Academic course, except the Greek; together with a further and more particular examination, satisfactory to the Faculty and Board of Examiners, in one of the following courses, viz.: Differential and Integral Calculus; Practical Astronomy; Natural History, Mineralogy, and Geology.

Any student of the College may receive the degree of Bachelor of Science, together with that of Bachelor of Arts, upon passing a special examination in the regular Mathematical and Scientific course, and the further examination above indicated.

Notice of intention to apply for this degree must be given in writing to the Secretary of the Faculty, at the opening of the Christmas Term.

MATRICULATION.

Extracts from the College Statutes.

SEC. 1. Matriculation shall consist in signing, in the presence of the President, Faculty, and others, the following promise:

"I promise to observe the statutes, lawful usages, and customs of Trinity College; and to maintain and defend her rights, privileges, and immunities, at all times and in all places, according to my station and duties in the same."

SEC. 2. All non-matriculated persons are considered as on probation, and therefore not entitled to the full privilege of members of the Institution. Upon giving evidence of good character, they are admitted to matriculation at the close of the term in which they have entered. Unless they are allowed to matriculate as early as at the end of the second term of their course, they cease to be students of the College.

STANDING.

The standing of a student is reckoned from the beginning of the Freshman year, and is determined by his diligence in study, his punctuality in attendance, and his general good conduct.

At the close of each term, a report of the scholarship, attendance, and conduct of each student is transmitted to his parent or guardian.

The aggregate standing attained by each member of a class is published at the beginning of the second term in Junior year and at the end of Senior year.

Appointments at Commencement are assigned to the members of the Senior Class according to the aggregate of marks attained by each of them during the entire College course. When a student has entered College after the beginning of Freshman year and before the beginning of the second term in Junior year, his standing for the term or terms during which he was absent is considered to have the same proportion to the maximum as that which he gains while in residence up to the time of the first publication of his aggregate standing, and, having been once published, is not recomputed. The back standing of a student entering later in the course is computed in the same manner, with a deduction of five per cent.

No appointment is ordinarily assigned to any student who has entered College at or after the beginning of Senior year.

TERMS AND VACATIONS.

There are two terms in the Academic year. Christmas Term begins about the middle of September. Trinity Term begins

early in January, and closes with Commencement. Commencement-Day in 1875 is the first day of July.

Christmas Vacation continues two or three weeks. Trinity Vacation continues eleven weeks from Commencement. There is also a recess in the Spring.

LIBRARY AND CABINET.

The Library contains about 15,000 volumes, exclusive of pamphlets, unbound volumes, and duplicates, and is increasing from the income of the Bishop Burgess, Elton, Sheffield, Peters, and Athenaeum Funds, amounting in all to \$29,600.

The Alumni Library Fund now amounts to about \$3,400, making the aggregate of the Library Funds, \$33,000.

The Reading-room of the College, under the charge of a committee of the students, is supplied with newspapers and periodicals published in this country and in England.

The students have free access daily to the Watkinson Library, a valuable collection of books for reference, containing about 30,000 volumes; and there are other excellent libraries in the city.

The College Cabinet possesses a valuable collection of Minerals, Fossils, and Shells.

GYMNASIUM.

The Gymnasium, recently built on the College campus, provides all the students with opportunities for physical exercise.

No estimate is given of the cost of text-books or of furniture; if they are sold when the student has no further need of them, the expense will be greatly diminished.

Through a bequest of \$15,000 made by Mrs. Sarah Gregor, and through scholarships mentioned hereafter, the College is enabled to remit the fee for tuition to all who are unable to pay it.

Necessitous students are also provided to some extent with text-books, by means of a lending library established for that purpose.

Students admitted to advanced classes, except those from other Colleges, are required to pay \$12 for each term of their advancement. This charge is remitted to indigent students.

Any unnecessary damages to the College property in any Section are assessed upon all the occupants of that Section.

No student can receive his degree or an honorable dismissal until the Bursar certifies that all his College bills are paid, and that, so far as the Bursar knows, there are no lawful claims upon him for board or washing which he has failed to satisfy.

To prevent extravagant or improper expenditures by the students, the College Bursar is authorized by the Statutes to receive and pay out their funds according to the parents' or guardians' instructions.

These are four in number, founded in 1868, by the Hon. Isaac Toucey, LL.D. They yield \$300 each *per annum*, and are assigned, after a competitive examination, to students who are studying with a view to the Holy Ministry. The founder, by making the College the trustee of another fund, has enabled it to appoint the holders of these Scholarships to Scholarships of equal value in the Berkeley Divinity School.

SCHOLARSHIPS OF THE CHURCH SCHOLARSHIP SOCIETY.

The Church Scholarship Society of the Diocese of Connecticut aids a few students with loans, not exceeding \$100 *per annum*, which are granted only to persons in necessitous circumstances, preparing for Holy Orders, and sustaining a correct deportment as

communicants. Applicants must be furnished with a testimonial of such qualifications, signed by a clergyman to whom they are personally known. The President of the College is President of the Executive Board of the Church Scholarship Society.

SCHOLARSHIP OF CHRIST CHURCH, HARTFORD.

This was founded in 1839, by J. Smyth Rogers, M.D., Professor of Chemistry. In 1845, in consideration of the subscription from the Parish for the erection of Brownell Hall, the endowment was increased. The right of nomination is vested in the Rector of Christ Church.

THOMAS BACKUS SCHOLARSHIP.

This was founded in 1837, by the Rev. Stephen Jewett, M.A., to be held "by some beneficiary designing to enter the ministry of the Protestant Episcopal Church," and is of the value of one hundred dollars annually, for which the beneficiary is to give his obligation, payable with interest four years after he leaves the College. This scholarship yields no available income at present.

WILLIAM ALLEN MATHER SCHOLARSHIP.

with a view to Holy Orders. The right of nomination is vested in the Rector of St. John's Church, Hartford; or, in case he fails to nominate, in the Corporation of the College.

BURHANS SCHOLARSHIP.

This Scholarship was founded by a bequest of the Rev. Daniel Burhans, D.D. The sum of \$500 which he left to the College having accumulated by the addition of interest to \$1,000, the interest on this last amount is now available in accordance with the terms of the legacy. NEW GROUNDS AND BUILDINGS.

At the time of the sale of the old campus to the city of Hartford, the Trustees reserved to the College the free use of the buildings and the grounds adjacent until April, 1877, with the exception of the north dormitory (Brownell Hall), which might be taken down if necessary to give space for the new State-house. A portion of the north section of this Hall has been removed.

A new College site, containing some seventy-eight acres, has been purchased by the Trustees within the city limits, and about one mile south of the old site. A topographical survey and preliminary study of this tract has been made by Mr. Frederic Law Olmsted, of New York, which contemplates the laying out and reserving of between thirty and forty acres of it for the College Buildings and Park.

As regards the Buildings, very extensive and beautiful plans, drawn by the eminent London architect, Mr. W. Burges, were laid before the Board, by the committee in charge of this matter, at its annual meeting in the summer of 1873.

In the course of that year, by direction of the Board, certain changes were made in the plans, additional and more specific drawings were procured, and estimates were made by an architect and by builders familiar with the cost of materials and labor here. It was deemed prudent, however, to obtain still more detailed drawings, with specifications and estimates on these, to make sure that the cost would not be too great, before actually making contracts and proceeding with the work of building.

During the past year these detailed plans and specifications have been prepared with great care, and they were presented at

the last meeting of the Trustees. The final plans will soon be completed.

The Buildings contemplated in the original plans are the following, viz.: 1, a Chapel; 2, a Library; 3, a Museum; 4, a Dining Hall; 5, an Art Gallery; 6, a Theatre; 7, a series of Lecture Rooms; 8, a Reading Room and Rooms for Literary Societies; 9, Dormitories for three hundred Students; 10, an Astronomical Observatory; 11, Houses for the President and Professors.

The parts of this plan which it is proposed to erect before the summer of 1877 are these, viz.: the Chapel, the Library, the Students' Dormitories, the Lecture Rooms (with the Laboratory, the Cabinet, and the Philosophical Room), and the Professors' Houses. These buildings will supply the College much more adequately with the means of carrying on its work on the new site than it has ever been provided with on the old.

Work will be begun on the buildings in the spring of 1875, as soon as the weather will permit.
